PROFESSIONAL SUMMARY

Updated on Nov. 20, 2020

- Successful early career scientist contributing to 22 peer reviewed journal publications (5 more in review), 11 other scientific products, 12 invited talks, and 18 other first author presentations at scientific conferences.
- Excellent track record of funding, receiving grants that have funded my research continuously for the last six years including an NSF Graduate Research Fellowship, an NSF Earth Sciences Postdoctoral Fellowship, and a USGS Mendenhall Postdoctoral Fellowship. Total funding awarded since starting my PhD exceeds $500,000.
- Demonstrated leadership co-organizing two conferences, a conference special session, and two workshops. Co-led three scientific working groups and mentored 12 undergraduates on independent research projects. Supervised dozens of other undergraduates and graduate students on proper field sampling techniques and data analyses.
- Dedicated to collaborative and inclusive work environment, contributing to several multi-institutional teams, professional training in team science techniques, and serving as a Peer Support Worker at USGS promoting awareness and education on topics and USGS policies for anti-harassment, discrimination, biases, and scientific integrity.

EDUCATION

University of Notre Dame — **Notre Dame, IN**
Ph.D., Biological Sciences — August 2017
Advisor: Dr. Stuart Jones

Calvin College — **Grand Rapids, MI**
B.S., Biology — June 2012

EMPLOYMENT

USGS Integrated Information Dissemination Division — **South Bend, IN**
Mendenhall Postdoctoral Fellow (GS-1301-12) — September 2019 – present
40hrs/week; $74,000/yr

- Developed a data assimilation framework for forecasting stream water temperature in support of water-management decisions, and partitioned forecast uncertainty into different error sources to optimize effort towards improving forecast performance.
- Contributed to 5 collaborative papers, 2 encyclopedia chapters, and 4 other scientific products. Co-organized a virtual conference, co-led 2 workshops, and co-led 2 scientific working groups.
- Contributed to USGS project planning and technical requirements for newly reorganized USGS Water Mission Area scientific programs.

USGS Integrated Information Dissemination Division — **Middleton, WI**
NSF Earth Sciences Postdoctoral Fellow — Sept. 2017 – Aug. 2019
40hrs/week; $62,000/yr

- Coupled lake biogeochemical and regional hydrologic model into a computationally efficient modeling framework to estimate lake contributions to regional carbon cycling both present day and under future climate scenarios.
- Contributed to 11 collaborative papers and 4 other scientific products. Co-led an international scientific working group. Helped develop reproducible scientific workflows for USGS data visualizations and scientific analyses.
- Established WikiProject Limnology and Oceanography, a group of editors aimed at improving aquatic-related Wikipedia articles for more equitable transfer of aquatic scientific information.

University of Notre Dame **Notre Dame, IN**

NSF Graduate Research Fellow Aug. 2014 – Aug. 2017
40hrs/week; $32,000/yr

Research and Teaching Assistant Aug. 2012 – June 2014
40hrs/week; $27,000/yr

- Advanced a framework for how hydrologic setting impacts lake carbon cycling in both space and time through intensive data collection and computational modeling. Helped established a long-term, coupled watershed and lake monitoring system to investigate intra annual changes in watershed fluxes and lake ecosystem properties.
- Contributed to 10 collaborative papers and 3 other scientific products.
- Mentored 11 undergraduates on independent research projects and advised dozens more on proper field sampling and data analyses techniques.

PROFESSIONAL SERVICE

Reviewer for: *Global Change Biology, Hydrologic Processes, Water Resources Research, rOpenSci, Biogeochemistry, Ecosystems*, *Global Ecology and Biogeography*, *Ecology*, *Ecological Applications, Science of the Total Environment, Limnology & Oceanography*, *Limnology & Oceanography Letters, Journal of Limnology, Inland Waters*, *Freshwater Science, Journal of the American Water Resources Association, Environmental Science and Technology, Nature Geosciences, New Zealand Journal of Marine and Freshwater Research, Scientific Data, Water, Hydrology and Earth System Sciences, Geosciences,* and *PLoS ONE*

US Geological Survey Peer Support Worker. I serve employees in my division by helping promote awareness and education on topics and USGS policies for anti-harassment, discrimination, biases, and scientific integrity (2020 – present)

Justice, Equity, Diversity, and Inclusion sub-committee member for the National Water Quality Monitoring Conference (2020 – present)

Co-Organizer of Virtual Summit: Incorporating Data Science and Open Science in Aquatic Research (2020)

Co-lead of the Methods and Cyberinfrastructure working group for the Ecological Forecasting Initiative (2020 – present)

Co-lead of the USGS Data Assimilation Working Group (2019 – 2020)

Co-lead of the Lake Metabolism and Carbon Cycling Global Lake Ecological Observatory Network working group (2017 – 2019)

Aquatic Sciences Advisory Committee Member for NEON (2019 – 2020)

Contributor to WikiProject: Limnology and Oceanography (2017 – present)

ASLO 2016 special session chair: *Plugging Leaks in the Plumbing of the Inland Water Carbon Cycle*

ASLO Student Activities Committee Member (2015-2017)

GLEON Graduate Student Association Blog editing committee member (2013-2015)

University of Notre Dame Biology Graduate Student Organization Officer (2013 – 2014)

Co-Organizer of the Midwest Ecology and Evolution Conference (2013)

Member of *Ecological Society of America*, *Association for the Sciences of Limnology and Oceanography*, *Ecological Forecasting Initiative,* and *Global Lake Ecological Observatory Network*

AWARDS

Exceptional Promise in Graduate Research Award, *Ecological Society of America Aquatic Ecology Section* (2015)

GRANTS & FELLOWSHIPS

U.S. Geological Survey Mendenhall Postdoctoral Fellowship (2019-2021): **GS-12 pay grade**

National Science Foundation Earth Sciences Postdoctoral Fellowship (2017-2019): **$174,000**

National Science Foundation Graduate Research Fellowship (2014-2017): **$138,000**

University of Notre Dame Center for Aquatic Conservation Graduate Fellow (2014): **$13,330**

University of Notre Dame Environmental Research Center Graduate Research Fellowship (2013-2015): **$24,000**

University of Notre Dame Environmental Research Center Graduate Mentoring Fellowship (2012): **$6,000**

University of Notre Dame Linked Experimental Ecosystem Facility Research Grant: **$1,500**

Ecological Dissertations in the Aquatic Sciences (Eco-DAS) XIII symposia participant. The symposia seeks to bridge interdisciplinary gaps in aquatic ecology among early career scientists.

Global Lake Ecological Observatory Network Graduate Student Fellow (2012-2014), Selective NSF-funded interdisciplinary training program in network science.

SKILLS

Computer and Statistical Skills: Microsoft Office, R, Python, HTC, Unix, unit testing, dependency management, literate programming, continuous integration, containerization, Ecological Metadata Language, environmental data QA/QC, frequentist statistics, Bayesian statistics, data assimilation, machine learning, aquatic biogeochemical and hydrodynamic modeling, hydrologic modeling, Observing System Simulation Experiments, trait-based modeling, GIS

Field and Laboratory Techniques: limnological field sampling, stream gauging, groundwater monitoring, fish sampling (fyke net, minnow net, angling, electroshock), macroinvertebrate sampling and identification, zooplankton sampling and identification, bacterial production, DNA extraction, environmental sensor maintenance and calibration, gas chromatography, nutrient analyses, total organic carbon analyses, elemental analyzer, chlorophyll analysis, lake sediment core sampling and processing, radon detection, whole-ecosystem manipulation, bioassays, mesocosm experimentation.
